Forecast for Saturday 12 Jun 2021

Weather: A rather cloudy start to the day with one or two light showers around. Becoming dry through the morning with cloud lifting and breaking to leave the rest of the day dry with some sunshine. Low cloud and a little light rain will spread from the west in the evening.

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Some patchy cloud down to 550 metres at first in the morning, mainly across western coastal ranges. Cloud lifting off the tops by the end of the morning with most summits clear by the afternoon with good visibility. Low cloud down to 500 metres will spread in from the west in the evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Be prepared for sunburn and dehydration on long hikes. Notable cooling effect on the highest tops, especially under cloud cover.

Forecast for Sunday 13 Jun 2021
Weather: Lochaber and Argyll will see a lot of low cloud through the day with a little rain at times, although Argyll may brighten up in the afternoon. Rain will become rather more widespread and sometime heavy through the evening. Strong southwesterly winds at height.

Maximum wind: Southwest 30 gusting 40 mph

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Widespread cloud down to 500 metres expected across the north of the area, this perhaps breaking in the afternoon for a while across Argyll. Elsewhere only patchy cloud around 800 metres.

Temperature: **Glens:** Plus 9, rising to 21 Celsius in the sunnier spots, but 16 Celsius where it remains overcast
At 800m: Plus 13 Celsius
Freezing level: Above summits
